

BARSETTO
2025 BRAND CATALOG

● Barsetto is a globally leading coffee machine brand, under the ownership of Guangdong Xinbao Electrical Appliances Holdings Co., Ltd. (002705.SZ).

As a pioneer in the professional coffee machine market, Barsetto adheres to the brand philosophy of focusing on coffee lovers, and aims at providing more professional coffee machines for coffee lovers. The company strictly abides by the international coffee machine technologies and participates in the research, development, and establishment of industry technical standards for international coffee machines.

In the ongoing pursuit of “providing a perfect cup of coffee,” its products now span a wide range of categories — including automatic coffee machines, machines with built-in scales and grinders, flat burr grinder integrated models, split-type semi-automatics, smart pour-over machines, high-precision electric grinders, professional grinders with scales, and various coffee accessories. With this comprehensive product lineup, the brand has earned global recognition for its “innovation and professionalism.”

● The origins of Barsetto can be traced back to the late 19th century on the streets of Rome, when the Ceccarelli family founded “Barsetto Caffè”, a coffee shop that is still in operation today. Thanks to their unique understanding and passion for coffee roasting, the family established a professional coffee roasting factory in the mid-20th century, formulated original coffee recipes, and passed them down through generations, laying a solid foundation for Barsetto.

In 2000, Barsetto Caffè officially founded the coffee machine brand “Barsetto”. The brand name “Barsetto” comes from the Italian words “Barista” (coffee specialist) and “perfetto” (perfect), meaning “perfect barista”. Barsetto has always upheld the spirit of the “perfect barista”, focusing on enhancing product quality and dedicated to providing professional coffee machines and exceptional experiences for coffee lovers around the world.

Since its establishment, Barsetto has been dedicated in developing core innovative technologies, and made great breakthroughs in grinding, temperature control, extraction, and steam, while continuously increasing the “playability” of its products. With a comprehensive product line that covers all scenarios, Barsetto has broken the global brand monopoly in the high-end home coffee machine market. Looking to the future, Barsetto will continue to focus on R&D at the forefront of coffee machine technology, lead technological innovation in the industry, and promote coffee culture worldwide.

BRAND HISTORY

LATE 19TH CENTURY

The Ceccarelli family opened a coffee restaurant on the streets of Rome, which is still in operation today.

MID-20TH CENTURY

The Ceccarelli family established a professional coffee roasting factory and created their own unique coffee flavors.

1998

The company developed and produced coffee machines serving Fortune 500 companies.

1999

The company established Asia office in Hong Kong, beginning expansion into the Asia-Pacific market.

2000

Barsetto Caffè officially launched the coffee machine brand “Barsetto”.

2012~2018

Barsetto officially entered the Chinese market and established the Global Coffee Consumer Research Center. In the commercial coffee machine sector, it provides professional equipment solutions for global coffee chain brands and retail stores.

2020

Barsetto obtained 13 utility model patents within just one year, covering product lines such as grinders, espresso machines, and pour-over coffee machines. launched it’ s first all-in-one coffee machine BEA01, ushering in the all-in-one grinder machinec 1.0 era.

2021

Barsetto became the designated coffee industry research and innovation center for Xinbao (002705.SZ), Coordinating high-end coffee machine ODM business in CHINA.

2022

Barsetto launched the first all-in-one grinder coffee machine with a built-in scale, the BAE02S, which became a long-standing bestseller — marking the start of the 2.0 era of integrated grinder coffee machines. World Brewers Cup (WBrC) champion Du Jianing was invited as the brand ambassador for the BAP-O2.

2023

Barsetto BAG-E6 won the German iF Product Design Gold Award.

2024

Launched the BAG-E6Air High-precision Electric Coffee Grinder, which immediately became the No. 1 best-selling coffee grinder online. Launched the BAE-2SAP Smart All-in-One Grinder and Brewer Coffee Machine, ushering in the 2.0 era of grinder and brewer integrated coffee machines. Launched the first BAE-03 flat-burr grinder coffee machine and officially entering the Grinder All-in-One 3.0 era.

2025

Barsetto launched the LX series, a line of automatic hot and cold dual extraction coffee machines, redefining the home coffee experience.

Future

As a pioneer in global coffee machine technology, we have been developing cutting-edge coffee machine technologies to lead and drive industry reform, and promote coffee culture to every corner of the world.

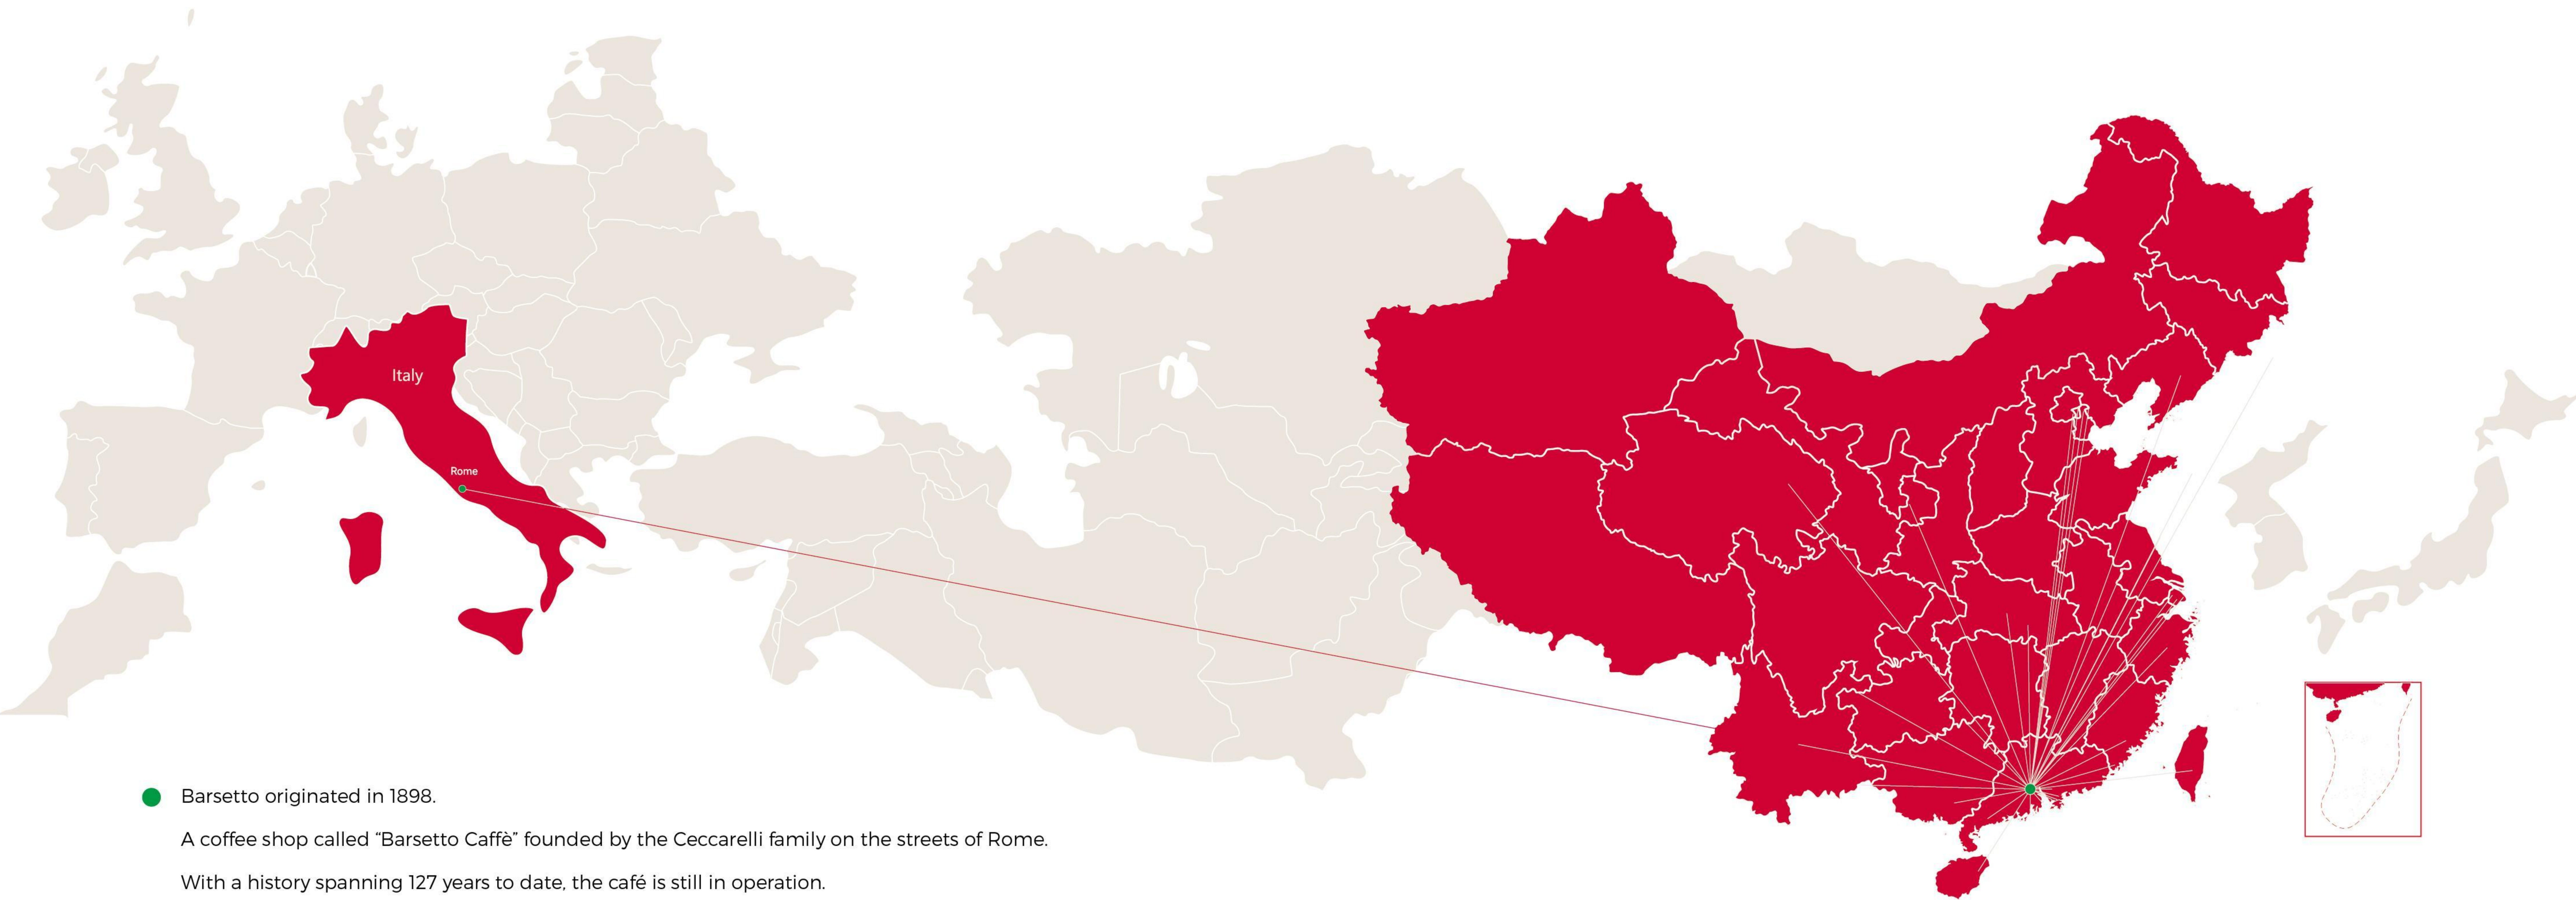

BRAND HERITAGE

BRAND 1.0 ERA

BRAND 2.0 ERA

BRAND 3.0 ERA

FROM ITALY TO CHINA

● Baretto originated in 1898.
A coffee shop called “Baretto Caffè” founded by the Ceccarelli family on the streets of Rome.
With a history spanning 127 years to date, the café is still in operation.

● China · Guangdong · Foshan · Baretto Headquarter
There are over 300,000 Baretto users nationwide,
mainly located in the first-tier and new first-tier cities.

BRAND CULTURE ●

Philosophy / Vision / Mission / Values / Spirit

**FOCUS ON
COFFEE LOVERS**

Barsetto upholds the brand philosophy of “focus on coffee lovers”, dedicated to providing professional coffee machines and brand experiences for the consumers who have passion for coffee and pursue high-quality coffee.

SLOGAN

**MAKING THE WORLD BETTER
UNDERSTAND COFFEE CULTURE**

We actively participate in exhibitions, competitions, coffee festivals, and other coffee cultural events, striving to be a pioneer in the coffee industry and to promote and spread coffee culture. Through participation and support in Yunnan coffee selection events, we practice the concept of “Yunnan coffee, shared globally”, setting a standard in the coffee industry and contributing to the world’s deeper understanding of coffee culture.

VISION

PROVIDING PROFESSIONAL COFFEE MACHINES FOR COFFEE LOVERS

In the rapidly growing coffee market, a group of passionate coffee lovers with a spirit of exploration has already emerged. We continuously explore cutting-edge technologies and more creative ways to enjoy coffee, using smart technology and AI algorithms to make the coffee experience more personalized and convenient, so that every coffee lover can feel the power of technology and innovation.

MISSION

**FOCUS / PASSION /
WISDOM / ORIGINALITY**

By embracing focus, passion, wisdom, and originality as our core values, we are committed to the R&D and innovation of coffee machines. Focus is reflected in every detail, passion drives our pursuit of excellence, wisdom leads improvements in quality and innovation, and originality gives our products unique character and style. With craftsmanship, we redefine and innovate coffee culture, bringing users a new coffee experience and creating original products that stand the test of time.

VALUES

INNOVATION / PROFESSIONALISM / GLOBALIZATION

With innovation, professionalism, and globalization as our core values, we are committed to promoting industry progress. Innovation is our driving force for continuous breakthrough. Professionalism is the cornerstone of our pursuit of excellence. Globalization is our goal for broadening our horizons.

With an open mindset to the world, we use professional expertise to craft high-quality products, lead the future with innovative thinking, provide excellent solutions to global users, and strive for broader visions.

SPIRITUALITY

GROUP STRENGTH

A subsidiary of Xinbao Holdings (002705 SZ)

Top 500 Private Manufacturing Enterprises in China

An annual export volume of up to 17 million coffee machines to over 100 countries

Main setter of high-end coffee machine industry standards

Owns nearly 4,900 patents, including nearly 300 invention patents

Established laboratories recognized by CNAS and a series of international authoritative institutions

Established a national-level industrial design center, and win multiple international awards and honors

Global High-End Home Appliance Consumers Research Center

Global High-End Home Kitchen Appliance Technology R&D Center

Dedicated in developing high-end smart kitchen appliances for more than 30 years

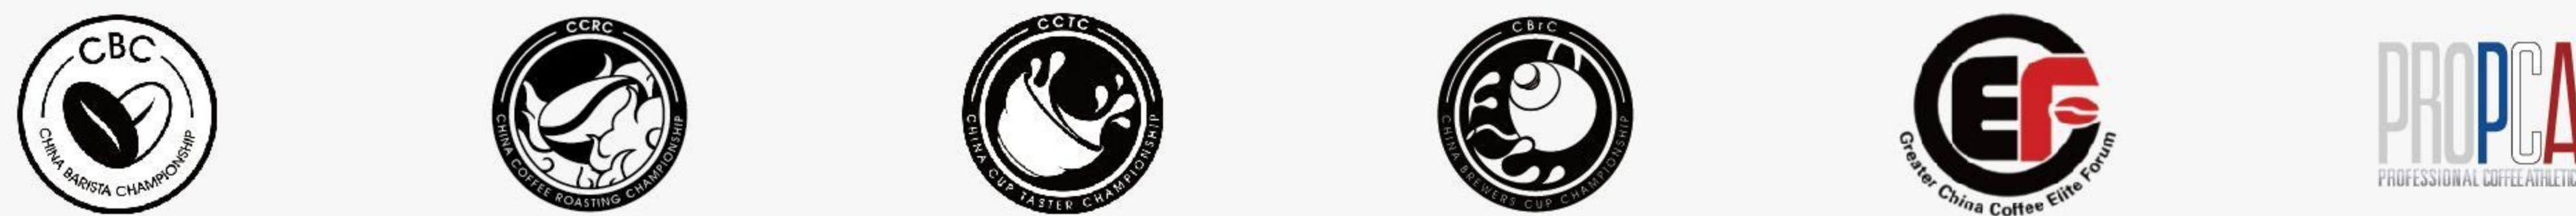

Leading and participating in the formulation of multiple international small appliance industry standards

Owns over 30 specialized product companies, nearly 26,000 employees, and more than 2,800 R&D staff

PRODUCT PRINCIPLE

When designing our coffee machines, we focus on stability, innovation, and playability, aiming to bring a high-quality product experience for coffee lovers. With the mission of “providing more professional coffee machines for every coffee lover” , we strive to create products that meet different needs and deliver a better coffee experience.

We hope that our products will offer users stable, reliable and creative coffee machines. More importantly, inspire, connect and empower every coffee lover’s passion and creativity, allowing them to enjoy a unique and delightful coffee experience.

STABILITY

Our Top Priority

An excellent coffee machine focuses on product stability and consistency. Every machine is carefully honed and tested through multiple processes. By choosing premium materials and advanced manufacturing techniques, our products achieve outstanding stability, providing coffee lovers with consistent extraction every time.

PROFESSIONALISM

Our Core Consideration

From grinding to intelligent temperature control, from efficient extraction to user-friendly operation, we make professional coffee machines to ensure users enjoy a coffee experience comparable to that of a café. We fully understand that only professional products can deliver an exceptional coffee experience. Therefore, we constantly pursue innovation and breakthroughs, striving to provide coffee lovers with trustworthy and professional coffee machines.

PLAYABILITY

Our Important Consideration

We firmly believe that coffee making is not just a daily routine, but also a form of joyful experience and creative expression. With smart technologies, our coffee machines allow you to freely control more parameters and variables, such as the smart voltage adjustment system of the BAE-PRO1 Smart All-in-one Coffee Machine, the personalized brewing function of the BAP-O2 Smart Pour-Over Coffee Machine, BAE-2SAP Smart All-in-one Coffee Machine, and smart APP and cloud sharing function of BAE-V1AP Coffee Machine, enabling professional coffee lovers to pursue playability and enjoy coffee making.

INNOVATION

Our Important Consideration

We always pursue innovation and progress, keeping a close eye on the latest industry trends and technologies, actively developing cutting-edge technology, and committing to integrating advanced features and functions into our products. We have a professional R&D team and high-end coffee industry research and innovation center, with strong independent R&D capability to improve and optimize products for evolving user needs.

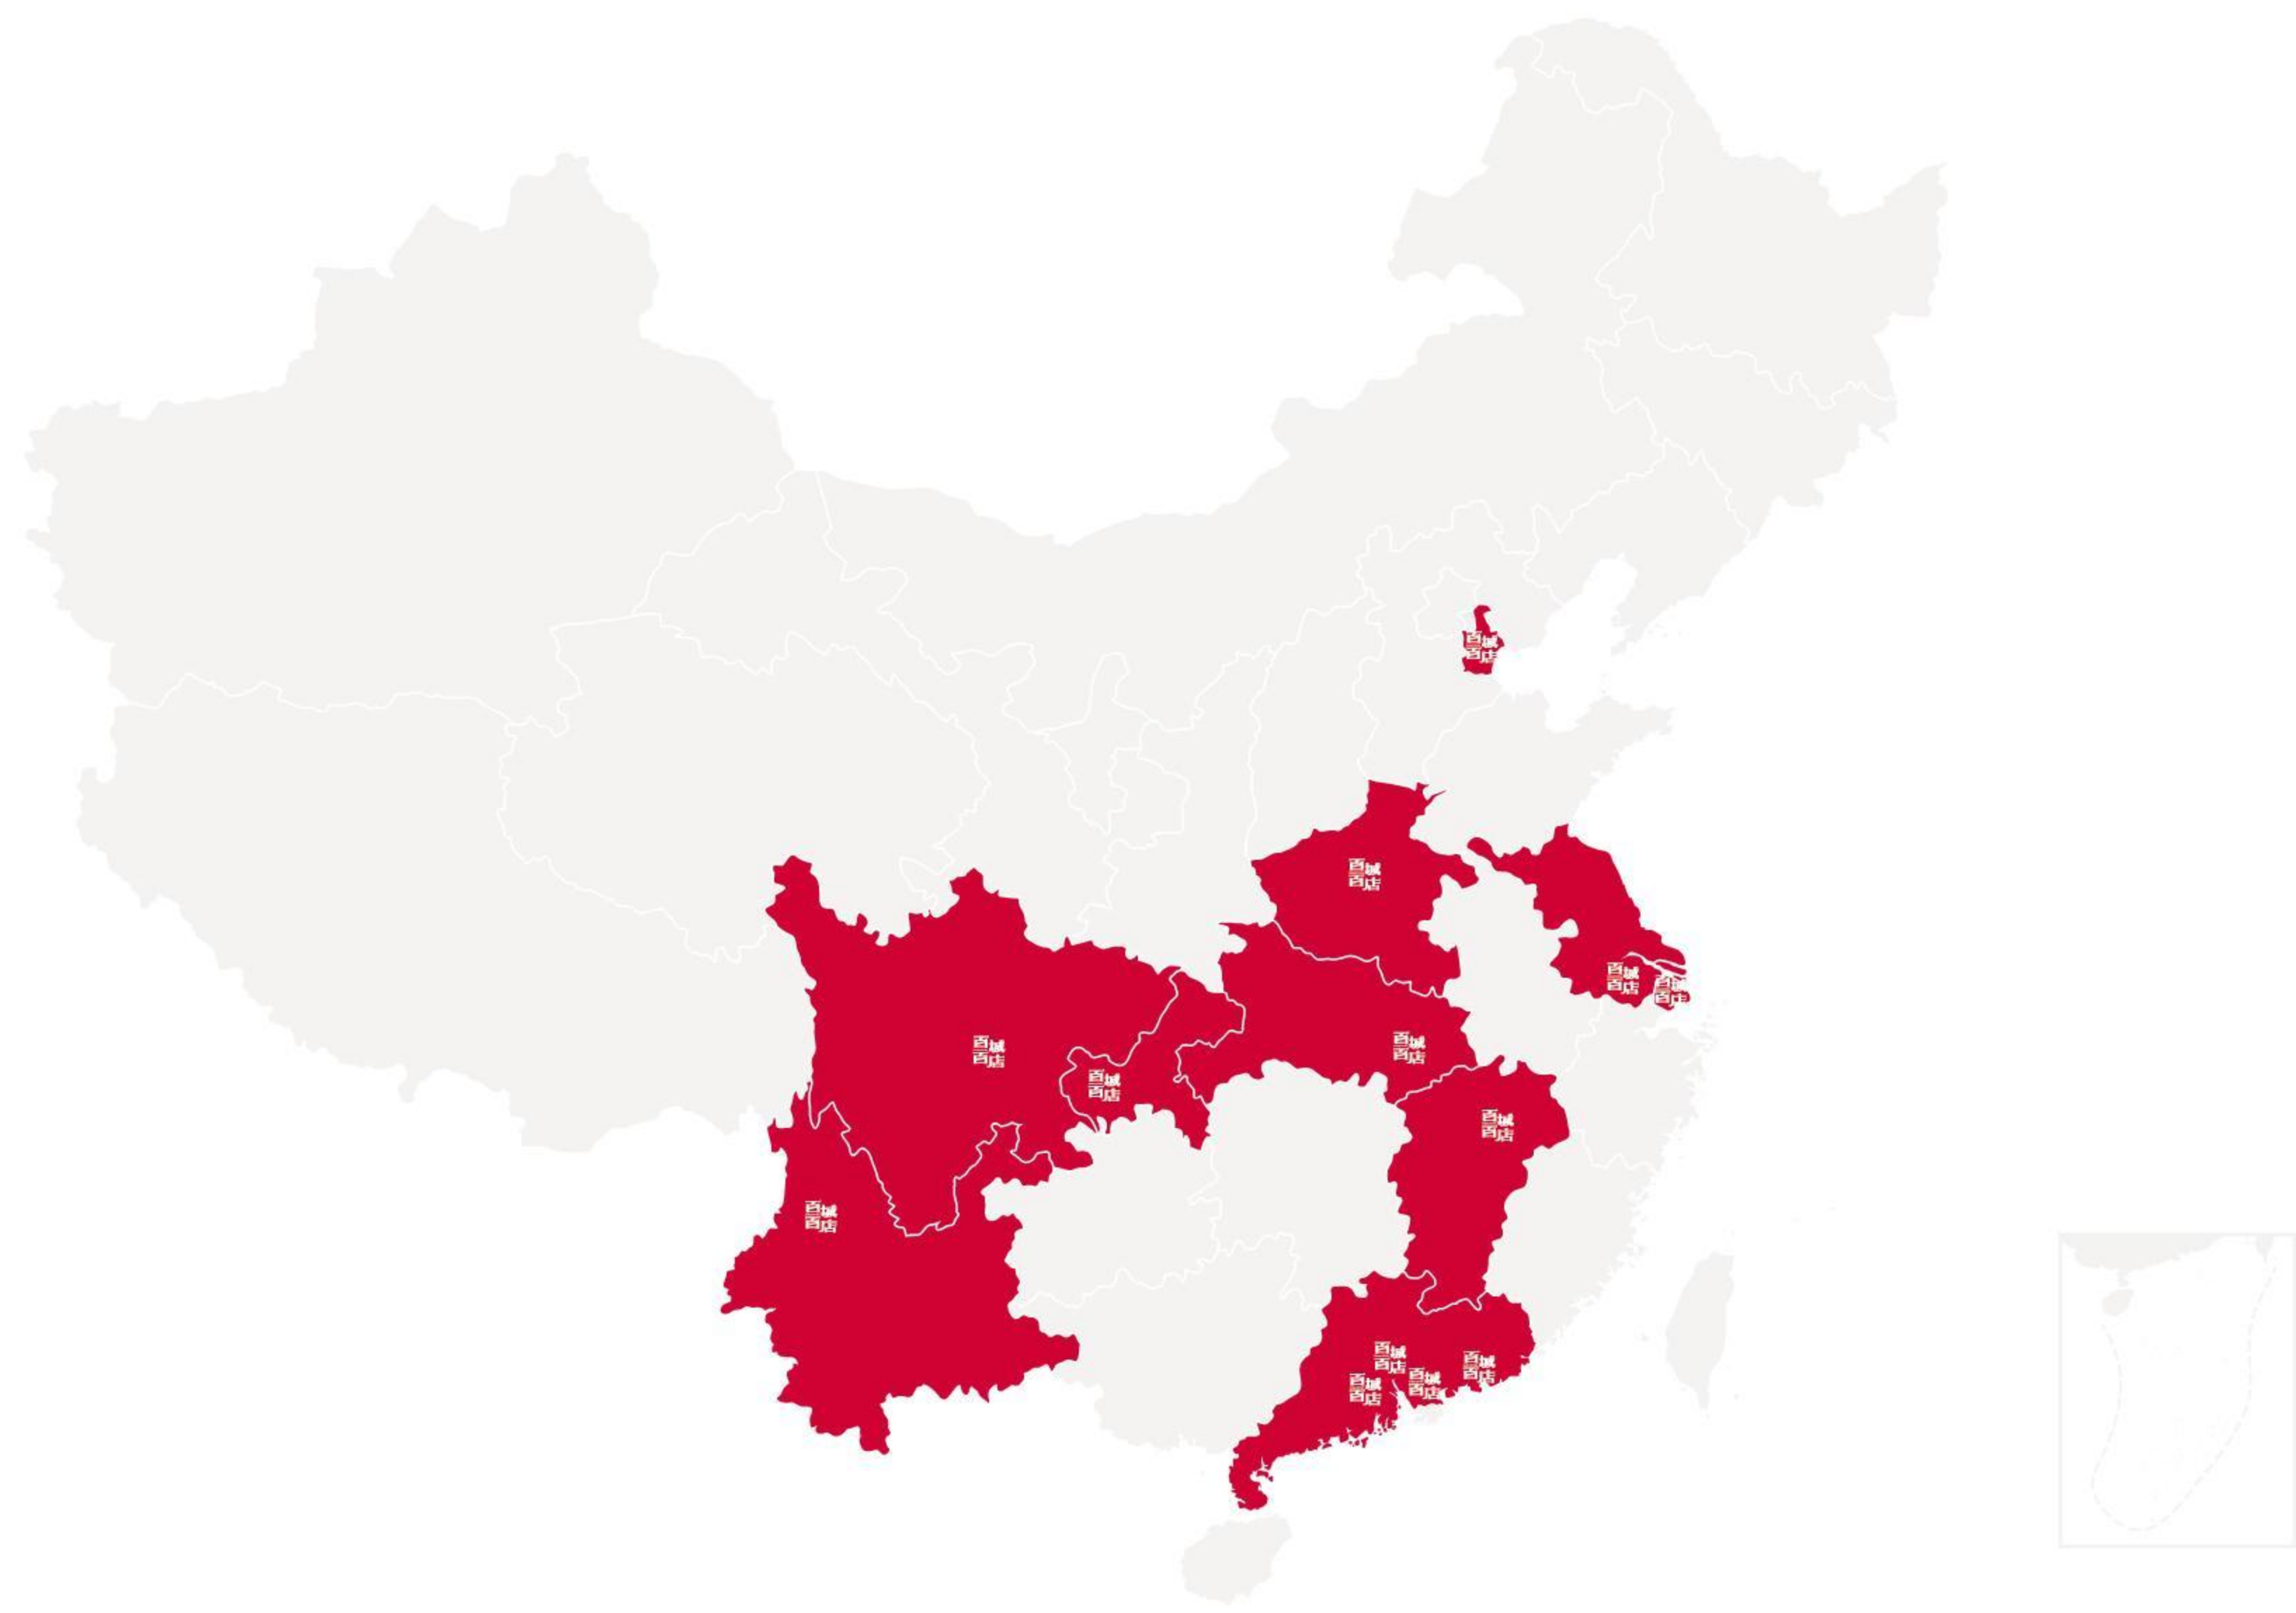

THE STORY OF 100 CAFES

Visit Barsetto's First Original Store

"The Story of 100 Cafes" is a cultural exchange project focuses on cities and coffee shops. Officially launched in November 2022, it has since established cooperation with many outstanding managers in various cities. Using coffee shops as a link, we aim to visit 100 cities to tell heartwarming stories about cities, coffee shops and people, and to explore the diversity and charm of urban coffee culture.

Through "The Story of 100 Cafes" , we hope to inspire people's attention and love for city culture and coffee shops. These coffee shops are not only a part of the city, but also carriers of emotions and memories. We believe that by sharing these stories, we can promote cultural exchange and understanding between different cities, and inject fresh energy into the inheritance and development of urban culture.

Flat Burr All-in-one Coffee Machine With Scale **BAE-03S**

2025 New Products

All-in-one grinder

Barsetto coffee machine, more ontelligent and professional

- Dual Cold and Hot Extraction System
- Self-developed Intelligent Drip Tray Scale

PRODUCT FEATURES

- Holeless flat burr design
 - Dual pump triple heating system
 - TT3 temperature-controlled thermal brew head
 - OPV professional pressure regulating valve
- Intelligent water tray scale
 - Dual cold and hot extraction system
 - Automatic powder cleaning function
 - 2-in-1 dual-purpose integrated handle

PRODUCT SPECIFICATIONS

- Water tank capacity: 1.5L + external water connection
 - Bean hopper capacity: 240g
 - Colors: graphite black, creamy white, glacier white
 - Dimensions: 343 x 377 × 425 (mm)
- Pump pressure: 20Bar
 - Net weight: 17.62 kg
 - Power: 3200W

**COFFEE LIFE
BEGIN WITH BARSETTO**

Intelligent Triple Display Advanced Coffee Machine **BAE-M1C**

2025 New Products

Start your journey as an amateur barista

PRODUCT FEATURES

- Intelligent triple display
 - Hot and cold dual-extraction system
 - Highly open parameter settings
 - Automatic pressune relief
- 58mm Commercial-grade brewing head
 - PID+NTC smart temperature control
 - Low pressure pre-soaking system
 - Metal body

PRODUCT SPECIFICATIONS

- Water tank capacity: 1.5L
 - Colors: graphite black, creamy white, glacier white, metallic silver
 - Dimensions: 205×277×299 (mm)
- Pump pressure: 20Bar
 - Net weight: 4.56 kg
 - Power: 1250W

PRODUCT CONTENTS

Barsetto offers a variety of coffee machine solutions to meet the needs of coffee lovers. We firmly believe that good products are the brand cornerstone, and thus we dedicate ourselves to cutting-edge coffee machine technologies.

We not only refine our grinding, temperature control, and extraction technology, but also continually push boundaries in product “playability”.

We ensure that every stage from steeping to extraction achieves optimal results, providing aromatic coffee for every coffee lover.

ALL-IN-ONE COFFEE MACHINE

● COFFEE MACHINE SERIES (2025)

Provide Innovative Experience and Usher a New Era of Fully Automatic Coffee Machine

We launched our first hot and cold dual-extraction automatic coffee machine—the LX series in this year, ushering a new era of Automatic coffee machine.

The LX series supports both hot and cold dual extraction, integrates an intelligent grinding control system and a five-stage cleaning system, bringing unprecedented convenience to users. Meanwhile, the highly anticipated Baretto O3S and 3SAP have been launched. Please look forward to our new products in the future.

 - Pump pressure: 20Bar
 - Net weight: 12kg

TECHNOLOGICAL DEVELOPMENT HISTORY

2020

Barsetto obtained 13 utility model patents within just one year, covering product lines such as grinders, espresso machines, and pour-over coffee machines.

Launched it's first all-in-one coffee machine BEA01, ushering in the all-in-one grinder machinec 1.0 era.

2021

Barsetto became the designated coffee industry research and innovation center of Xinbao Holdings.

Launched its first dual-pump and dual-heating system coffee machine BAE02, achieving simultaneous extraction and milk frothing.

2022

Launched its first all-in-one coffee machine with scale, BAE02S, initiating the 2.0 era of all-in-one grinder machines.

The AI intelligent interaction technology enables smart operation.

Industry's first induction weighing powder cup for easy weighing and improved user experience.

Developed plasma anti-static technology to solve the problems of powder flying, clumping and powder outlet adhesion.

2023

The first variable-pressure all-in-one coffee machine, BAE-PRO1, was launched. It features a four-stage intelligent variable-pressure extraction technology, supports customizable pressure curves, and includes a brand-new smart steam wand, offering more powerful steam output and an intelligent temperature control system, realizing instant temperature-sensing shutoff.

Launched its first electric tamper ALINE, equipped with intelligent adjustable constant pressure system, covering a pressure range of 10-25kg, solving the tamping issue for both home and commercial coffee.

2024

The first smart scale-equipped all-in-one coffee machine, BAE-2SAP, was released, supporting app smart control and intelligent pressure-reducing technology in the final extraction phase, enabling remote operation and personalized settings and ushering in the 2.5 era for all-in-one coffee machines.

Launched the first flat burr all-in-one coffee machine BAE-03, pioneered the hole-less flat burr grinding system, and developed the TT3 temperature-controlled thermal extraction group head, entering the era of all-in-one coffee machines 3.0.

Developed intelligent weighing and grinding technology, equipped with a built-in intelligent weighing stand, so that grinding and weighing can be done simultaneously, visualizing the amount of ground coffee.

Developed professional OPV pressure stabilization system, effectively stabilizing the extraction pressure of the coffee machine, easily achieving golden cup extraction.

Developed low-temperature, low-pressure cold brew technology, enabling golden cup cold brew in 2 minutes.

2025

Launched the first hot and cold dual-extraction automatic coffee machine—LX series ushering in the era of automatic home coffee machines.

FUTURE

As a global pioneer in coffee machine technology, we will keep exploring cutting-edge coffee machine technologies, create a brand-new product ecosystem, and lead and drive industry reform.

Automatic Coffee Machine

BAE-LX1A

2025 New Products

All-in-one grinder

Usher the true automatic fun era and easily master various latte art patterns

- 4.3-inch TFT screen
- Customizable extraction settings
- Professional extended steam wand
- PID+NTC dual temperature control
- Five-stage cleaning program
- 8 beverage options
- Memorize coffee preferences for friends and family

PRODUCT SPECIFICATIONS

- Water tank capacity: 1.6L
- Colors: creamy white, graphite black, pure white
- Power: 1350W
- Dimensions: 200 × 465 × 369 (mm)
- Bean hopper capacity: 250g
- Rated voltage: 220V~50Hz
- Pump Pressure: 20Bar
- Net weight: 12kg

● COFFEE MACHINE SERIES (2024)

Comprehensive upgrade: ushering the 3.0 era of flat burr all-in-one coffee grinders

In 2024, we launched a series of innovative technologies and products, marking the beginning of the 3.0 era for all-in-one coffee grinders. The release of the first flat burr all-in-one coffee machine BAE-03, featuring a hole-less flat burr grinding system and self-developed TT3 temperature-controlled thermal brewing head, significantly improving the uniformity and extraction stability of coffee grinding.

We also launched coffee machines supporting app smart control and end-stage intelligent pressure reduction technology (applied to BAE-2SAP and BAE-VIAP), achieving remote operation and personalized settings, making coffee-making smarter than ever.

In addition, the intelligent weighing and grinding technology (applied to BAE-VIAP) and professional OPV pressure stabilization system (applied to BAE-M3V) further optimize the performance of the coffee machines, making it easy to achieve golden cup extraction.

The launch of low-temperature, low-pressure cold brew technology (applied in BAE-01C, BAE-M2C) let the users enjoy high-quality cold brew in just 2 minutes. The coffee, through innovative interactive design (applied to BAG-E6Air), meets the needs of quality-seeking coffee lovers.

Throughout 2024, our comprehensive upgrades elevated our products into a smarter and more professional era.

Flat Burr All-in-One Coffee Machine **BAE-03**

2024 New Products

All-in-one grinder

Performance monster, born professional

- Officially recommended espresso coffe machine of 2025 World Coffee Brewing Championship China Regional Selection (CBrC)
- Pioneering solid flat burr grinding system
- Self-developed TT3 temperature-controlled thermal brewing head

PRODUCT FEATURES

- Upgraded grinding system
 - Triple heating system
 - OPV professional pressure stabilizing valve
 - Extra-long steam wand
- Solid flat burr design
 - TT3 temperature-controlled thermal brew head
 - Integrated die-cast aluminum
 - Auto powder cleaning

 - Power: 3200W

● COFFEE MACHINE SERIES (2023)

Technical breakthrough ushers the era of intelligent variable pressure & grinding

In 2023, we achieved a technological breakthrough, launching the first variable-pressure all-in-one coffee machine BAE-PRO1.

It is equipped with 4-stage intelligent variable pressure extraction technology, supporting custom pressure curves. Besides, BAE-PRO1 is equipped with a newly developed smart steam wand, featuring more powerful steam output and an intelligent temperature control system, as well as the temperature-sensitive immediate stop function.

In the same year, we launched the first electric tamper Aline. It is a wireless, adjustable, constant-pressure smart tamper designed to solve tamping issues for coffee lovers at home and in business.

Our technological innovation not only enhanced the professional performance of our products, but also brought coffee lovers a higher-quality experience.

Intelligent Grinder Coffee Machine With Scale **BAE-2SAP**

2024 New Products

All-in-one grinder

One-touch cold brew, AI-controlled flavor

- BAS-LINK Smart App
- Cloud recipe sharing
- End-stage smart pressure reduction

PRODUCT FEATURES

- | | |
|--|---|
| ○ Smart app control | ○ Drip tray electronic scale |
| ○ Dual heating system | ○ Extended steam wand |
| ○ End-stage smart pressure reduction | ○ 58mm commercial brew head |
| ○ Low temperature, low pressure cold brew technology | ○ Plasma anti-powder-spreading technology |

PRODUCT SPECIFICATIONS

- | | |
|--|------------------------|
| ○ Water tank capacity: 2.8L | ○ Power: 2200W |
| ○ Color: glacier white, graphite black, creamy white | ○ Pump pressure: 15Bar |
| ○ Dimensions: 322×347×410 (mm) | ○ Net weight: 10.68 kg |

Low Pressure Cold Brew All-in-One Coffee Machine **BAE-01C**

2024 New Products

All-in-one grinder

Low-pressure cold brew, refreshing and smooth

· Low temperature, low pressure cold brew technology

PRODUCT FEATURES

- Low-temperature, low-pressure cold brew technology
 - 30-level fine grinding
 - Pre-soaking system
 - Metal brew head
- Customizable personalized extraction settings
 - Plasma anti-powder-spreading technology
 - Precise temperature control, temperature deviation within $\pm 2^{\circ}\text{C}$

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.2L
 - Colors: glacier white, graphite black, creamy white
 - Dimensions: 295 x 325 x 410 (mm)
- Pump pressure: 15Bar
 - Net weight: 8.7 kg
 - Power: 1450w

Pressure-stabilized Semi-automatic Coffee Machine **BAE-M3V**

2024 New Products

Pressure-stabilized extraction technology creates gold cup quality

· Professional OPV voltage stabilization system

PRODUCT FEATURES

- Dual heating system
 - Professional OPV voltage stabilization system
 - Visual pressure gauge
 - Horn/Bottomless dual-use portafilter
- 20Bar water pump
 - 58mm commercial brew head
 - PID+NTC precise temperature control
 - Custom extraction data

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.2L
 - Colors: creamy white, graphite black
 - Power: 2200w
 - Dimensions: 262 × 310 x 330 (mm)
- Rated voltage: 220V-50Hz
 - Pump Pressure: 20Bar
 - Net weight: 8.0 Kg

Hot & Cold Dual Extraction Semi-automatic Coffee Machine BAE-M2C

2024 New Products

Star-speed cold brew, star-level flavor

Low-temperature, low-pressure cold brew technology

PRODUCT FEATURES

- Metal body
- Automatic pressure relief valve
- 15Bar water pump
- PID electronic temperature control
- Low-temperature, low-pressure cold brew technology
- 58mm commercial brew head
- Pre-infusion system

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.2L
- Colors: glacier white, graphite black, creamy white
- Dimensions: 310 × 262 × 330 (mm)
- Pump pressure: 15Bar
- Net weight: 6.38 Kg
- Power: 1300w

Intelligent All-in-one Coffee Machine **BAE-PRO1**

All-in-one grinder

- Inspiration coffee, defined by you
- 2024, BAE-PRO1 won the German iF Product Design Award

· 2023, BAE-PRO1 won the “China Home Appliance Health Star” Award

PRODUCT FEATURES

- Intelligent variable pressure system

○ Premium pour-over coffee mode

○ 7.84-inch LCD screen

○ Upgraded dual heating system, 30% higher heating efficiency
- Smart temperature-sensitive steam wand

○ Precise temperature control, temperature deviation within $\pm 1^{\circ}\text{C}$

○ Metal titanium-coated burrs

○ Carry-on coffee suitcase

○ Drip tray scale

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.8L

○ Colors: graphite black, creamy white

○ Power: 2800W

○ Dimensions: 306×350×413 (mm)
- Bean hopper capacity: 250g

○ Pump pressure: 4-stage variable pressure

○ Net weight: 11.88 Kg

Intelligent Pour-over Coffee Machine **BAE-O2**

All-in-one grinder

Modern pour-over frontier, creating a master’s benchmark

- In 2025, official designated smart pour-over coffee machine for the 2nd DBC Happy Brewing Coffee Exchange Competition
- In 2023 and 2024, official recommended smart pour-over coffee machine for the World Coffee Brewing Competition (CBrC)
- 2023, Barsetto BAP-O2 won the German iF Product Design Award
- 2022, Barsetto BAP-O2 won the China Red Top Award Nominee
- 2022, Barsetto BAP-O2 won the China Canton Fair Design Innovation
- 2021, Barsetto BAP-O2 won the Golden Award, German Red Dot Concept Design Award

PRODUCT FEATURES

|--|--|

Semi-automatic Coffee Machine With Scale **BAE-M3**

Elevated Extraction, Mastery Unbound

· Low-temperature, low-pressure cold brew technology

PRODUCT FEATURES

- Dual heating system
- Smart drip tray electronic scale
- Visual pressure gauge
- Upgraded commercial-grade components
- 15Bar water pump
- 58mm commercial brew head
- PID+NTC precise temperature control
- Custom extraction data

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.2L
- Color: creamy white, graphite black
- Power: 2200W
- Dimensions: 262×310×330 (mm)
- Rated voltage: 220V~50Hz
- Pump pressure: 15Bar
- Net weight: 8.93 Kg

● COFFEE MACHINE SERIES (2022)

Innovation sets sail, defining the 2.0 era of scale-equipped all-in-one grinders

Barsetto launched a groundbreaking product—BAE02S, the first integrated grinder & scale coffee machine, officially ushering in the 2.0 era of all-in-one grinder coffee machines. In the same year, we launched the industry's first induction weighing powder cup. The technology was integrated into the high-precision grinder BAG-E6, enabling effortless, accurate, and consistent dosing for an optimized coffee experience.. The introduction of plasma anti dash static technology resolved issues of powder spout static, powder spreading, and clumping, making coffee preparation cleaner and more efficient.

Meanwhile, AI-powered interactive technology was introduced in the smart pour-over coffee maker BAP-O2, enabling more intelligent and user-friendly operation. A fine three-hole steam wand was also developed for the quasi-commercial all-in-one grinder coffee machine BAE-V1, enhancing steam output stability and significantly improving coffee flavor and quality.

All-in-one Grinder Coffee Machine
With Scale **BAE02S**

All-in-one grinder

Smart coffee scale, dual heating system

- In 2023, champion in Tmall coffee machine category best-selling list during June Promotion and Double 11 events
- In 2022, Barsetto BAE02S won the “China Home Appliance Health Star” Award
- In 2022, double champion in Tmall & JD best-selling coffee machine lists during June Promotion, Double 11, and Double 12 promotion events

Semi-commercial All-in-one Coffee Machine **BAE-V1**

All-in-one grinder

Breaking the boundary between home and commercial

· In 2022, Barsetto BAE-V1 won the “Good Product” of the Year Award for China's Home Appliances

PRODUCT FEATURES

- Automatic water supply system
- High openness settings
- Independent hot water outlet
- Plasma anti-powder-spreading technology
- Digital display screen
- Fine tube three-hole steam wand
- Dual heating system

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.8L
- Colors: graphite black, creamy white, pine green
- Power: 2800W
- Dimensions: 306 x 350 x 350 (mm)
(excluding bean container, bean container height 78mm)
- Bean hopper capacity: 250g
- Pump pressure: 20Bar
- Net weight: 11.22 Kg

Dual Heating All-in-one Coffee Machine **BAE02**

All-in-one grinder

Dual heating system, extraction and milk frothing simultaneously

PRODUCT FEATURES

- Dual heating system
- Visible pressure gauge
- Plasma anti-powder-spreading technology
- 20Bar water pump
- 58mm commercial brew head
- Precision temperature control
- temperature difference within $\pm 2^{\circ}\text{C}$

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.8L
- Colors: graphite black, creamy white
- Power: 2200w
- Dimensions: 347 x 322 x 332 (mm)
(Excludes bean hopper, bean hopper height 78mm)
- Bean hopper capacity: 250g
- Pump pressure: 20Bar
- Net weight: 10.8 Kg

Small Semi-automatic Coffee Machine **BAE-M2**

Versatile home coffee machine, enjoy leisure life with aroma coffee

PRODUCT FEATURES

- Metal body
- Automatic pressure relief valve
- 15Bar water pump
- PID electronic temperature control
- 58mm commercial brew head
- Pre-infusion system

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.2L
- Color: creamy white, graphite black
- Power: 1300W
- Dimensions: 262 x 310 × 330 (mm)
- Rated voltage: 220V-50Hz
- Pump pressure: 15Bar
- Net weight: 6.38 Kg

Light High-precision Electric Coffee Grinder **BAG-E6Air**

Full-range grinding, light and easy operation

- In 2025, official single-origin grinder for the China Regional Selection of the World Coffee Roasting Championship (CCRC)
- In 2025, official designated grinder for the Coffee Team All-Round Challenge (CTAC)
- In 2025, official designated electric grinder for the GCEF Yunnan Coffee Evaluation
- In 2025, official designated grinder for the 2nd DBC Happy Brewing Coffee Exchange Competition
- In 2024, the only official designated grinder for the PCA Professional Coffee Brewing Masters Competition
- Compatible with SSP burrs

PRODUCT FEATURES

- 90-level fine grinding
- Plasma anti-powder-spreading technology
- Auto stop system
- Compatible with SSP burrs
- 64mm titanium-coated flat burrs
- 250W high-efficiency motor
- Magnetic powder receiving cup

PRODUCT SPECIFICATIONS

- Color: creamy white, graphite black, midnight silver, glacier white
- Power: 250W
- Dimensions: 138×203×298 (mm)
- Rated voltage: 220V
- Net weight: 5.22kg

Entry-level All-in-one Coffee Machine **BAE01**

All-in-one grinder

All-in-one design saves space and budget, refreshing extraction experience

· In 2021, Barsetto BAE01 won the German iF Product Design Award

PRODUCT FEATURES

- 30-level fine grinding
- Customizable personalized extraction settings
- Plasma anti-powder-spreading technology
- 15Bar water pump

- 58mm commercial brew head
- Precise temperature control, temperature deviation within $\pm 2^{\circ}\text{C}$

PRODUCT SPECIFICATIONS

- Water tank capacity: 2.8L
- Colors: creamy white, avocado green, peak blue, graphite black
- Power: 1450w
- Dimensions: 322×347×331 (mm)
(Excludes bean hopper, bean hopper height 78mm)

- Bean hopper capacity: 250g
- Pump pressure: 15Bar
- Net weight: 8.7 kg

Mini Semi-automatic Coffee Machine **BAE418**

Mini body design, easily fits any small corner of your home

PRODUCT FEATURES

- Professional milk frothing function
- Visual pressure gauge
- 20Bar water pump

- Custom cup volume
- 51mm extraction diameter
- Pre-infusion system

PRODUCT SPECIFICATIONS

- Water tank capacity: 1L
- Colors: creamy white, Avocado Green, peak blue, graphite black
- Power: 1250w
- Dimensions: 312×139×304 (mm)

- Rated voltage: 220V~50Hz
- Pump pressure: 20Bar
- Net weight: 4.2 Kg

Professional Electric Coffee Grinder

BAG-G01S/BAG-G01

High-standard grinding, professional in every aspect

· In 2024, Barsetto BAG-G01S won the German iF Product Design Award

PRODUCT FEATURES

- 38mm metal conical burrs
- Intelligent digital display screen
- Plasma anti-static technology
- Smart weighing dosing cup (BAG-G01S)
- 40 grinding levels
- Adaptive handle bracket
- Soft-glow metal body

PRODUCT SPECIFICATIONS

- Bean hopper capacity: 300g
- Colors: creamy white, graphite black
- Dimensions: 195 x 155 x 323 (mm)
- Rated voltage: 220V~50Hz
- Power: 150W
- Net Weight: 3.2kg

Conical Burr Coffee Grinder

BAG-703

All-in-one grinder

Fine grinding, coffee aroma overflowing

PRODUCT FEATURES

- Plasma anti-static technology
 - Intelligent timed grinding
 - Detachable bean hopper
- 35-level fine grinding
 - Micro AC motor
 - Replaceable powder receiving accessories

PRODUCT SPECIFICATIONS

- Bean hopper capacity: 150g
 - Colors: creamy white, graphite black
 - Dimensions: 203 × 138 x 310 (mm)
- Rated voltage: 220V~50Hz
 - Power: 200W

Wireless Adjustable Constant Pressure Smart Tamper **ALINE**

Smart control tamping, playful espresso experience

- In 2024, special tamper for the China Regional Selection of the World Barista Championship (CBC)
- In 2024, Barsetto ALINE won the German iF Product Design Award
- In 2023, PCA Professional Coffee Latte Art Master Competition's Sole Officially Designated Electric Tamper

PRODUCT FEATURES

- Precisely controlled pressure
- Compatible with double-ear/three-ear handles
- Digital display screen
- Multiple shape pressing powder tablets
- 10-25kg Adjustable pressure
- Wireless charging + ambient light
- Large-capacity lithium battery
- Metal body, easy operation

PRODUCT SPECIFICATIONS

- Net weight: 0.55kg
- Rated pressure: 10-25kg
- Colors: polar Silver, obsidian Black
- Dimensions (Height*Diameter): 82*92 (mm)
- Rated voltage: 12V
- Rated power: 15W
- Operation: knob to adjust pressure
- Charging: wireless charging

Smart Weighing Powder Cup

BAX-E6

powder adding and weighing can be achieved in just one cup

PRODUCT FEATURES

- Smart sensing and weighing
- Error accuracy: low to 0.1g
- LED Display
- Large-capacity lithium battery
- Aluminum alloy body
- 58mm Dosing port

PRODUCT SPECIFICATIONS

- Material: aluminum alloy + ABS
- Capacity: 50g
- Colors: creamy white, black
- Dimensions: 78*95*85 (mm)
- Weighing error: 0.1g
- Display: LED
- Operation: touch control

Ice Maker

BAI-1000

Enjoy iced coffee anytime, feel cool in seconds

PRODUCT FEATURES

- Bullet-shaped round ice
- Branded compressor
- Extra thick foaming layer
- Size selection for ice cubes
- Water shortage protection
- Low-noise operation
- Automatic stop when ice is full

PRODUCT SPECIFICATIONS

- Ice basket capacity: 400g ±10%
- Water tank capacity: 1.2L
- Colors: creamy white, black
- Dimensions: 292×238×282mm (mm)
- Power: 80W
- First ice making time: 9 min
- Ice production: 10kg/24h
- Ice size: large Ø22*32.5(±10%), small Ø18*30(±10%)
- Net weight of the machine: 6.2kg
- Rated voltage: 220V~50Hz
